

Animal-Centric Lighting Systems

This round weatherproof 4-inch Junction Box is used with conduit in harsh agricultural barn environments. It is made to withstand routine pressure wash cleanings and resist corrosion in wet, damp and dry locations. The rugged PVC exterior/interior construction features a durable, Built For Your Barn® design, and four (4) sealed threaded hubs (3/4" NPT), with one (1) open hub (3/4" NPT). This box is guaranteed to withstand harsh barn environment for years to come.

Complete Your AgriShift® Lighting System: AgriShift® Master Controller and Slave Dimmer

- Universal input power
- Offers several advanced features, adding flexibility
- Eliminates lighting anomalies to increase production
- Universal input power

The AgriShift® G Controller is a slave dimmer that provides full potential to any ONCE® AC lighting fixture. It offers smooth dimming solutions that can easily be controlled by two separate 0-10 VDC control signals and several advanced features, giving added flexibility while addressing the complex needs of today's modern agriculture facilities.
