DISCLAIMER: Manufacturer recommends storing product away from exposure to the sun, as its U.V. rays and other general weather conditions will diminish the life the product. Exposure to outside weather elements voids all warranties.

POULTRY BREEDER PRODUCTS

Southwest Agri-Plastics offers a comprehensive line of plastic Poultry Breeder products. Our plastic slats, nest pad, and ramp are designed to out-perform the competition. Made from high grade plastics, our breeder products provide superior impact and wear resistance. Non-porous surfaces make each part easier to clean and more resistant to microbial growth. Combined with our competitive prices, each component has added value built-in to every part. For over 45 years Southwest has been a leading innovator in the field of agricultural plastics, manufacturing hard working products for hard working people. We invite you to put our products to the test, and experience the difference.

DURABILITY

- Constructed from High Grade Plastic Material
- Reinforced Stress Points
- Superior Impact & Wear Resistance

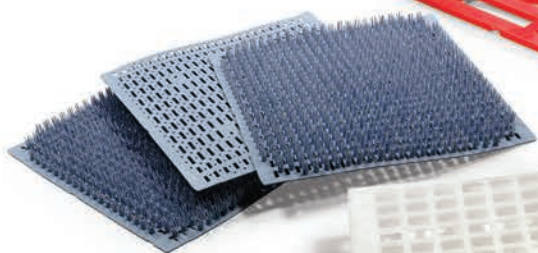

CLEANABILITY

- Increased Airflow
- Better Waste Discharge
- Easier Cleaning
- Maintains Clean Environment

PERFORMANCE

- Rot / Rust / Corrosion Proof
- Non-Porous / Moisture Resistant Surfaces
- Light Weight / Rigid Designs
- No Rough Edges, Splinters
- UV Protection
- Universal Compatibility
- Cost Effective

DURA-SLAT
POULTRY FLOORING SYSTEM

SOUTHWEST **AGRI-PLASTICS**, INC.

DURA-SLAT Poultry Flooring System

DURA-SLAT poultry breeder slats are designed to replace wood and wire slats in poultry breeder houses. We offer 4' and 5' sizes that provide multiple options to fit your slat needs and reduce cost. The flooring is made from high impact, wear resistant polypropylene plastic, is rot / corrosion proof, will outlast wood slats and can cut cleaning time in half. **DURA-SLAT** features non-porous smooth surface with 1.1" x 1.1" openings that resists micro-organism build-up and sheds waste easily. Our solid plastic construction reduces foot pad problems, leg problems, and breast blisters experienced with wood slats. It has been proven that eggs laid on square openings, regardless of surface area, were significantly cleaner than eggs laid on wooden slats. The primary contamination of hatching eggs is caused by contact with dirty sources. Eggs laid on plastic have less surface microorganisms than those laid on wood slats.

PLASTIC vs WOOD

DARE TO COMPARE: When plastic and wood slats are compared side by side, there really is no comparison.

PLASTIC

YES	Easy to Clean?	NO
YES	Long Lifespan?	NO
YES	Rot / Moisture Proof?	NO
YES	Wear / Impact Resistant?	NO
NO	Traps Bacteria / Porous?	YES
NO	Rough Edges / Splinters?	YES
LOW	Egg Contamination?	HIGH
LOW	Cost Over Lifespan?	HIGH

WOOD

Dura-Slat Plastic Slats

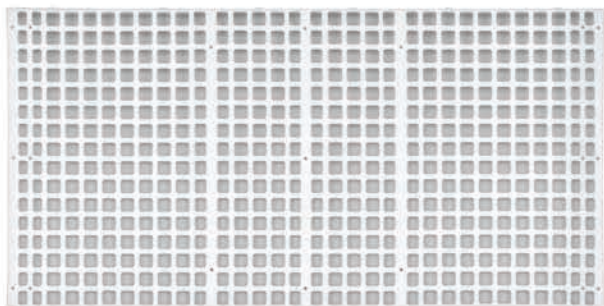

Traditional Wood Slats

Photos from the Field

Southwest Agri-Plastics **DURA-SLAT** Poultry Breeder Slats are easy to install, available with overlapping and non-overlapping (flush) mounting options, and manufactured in both 4 foot and 5 foot versions.

DURA-SLAT Four Foot (4') Non-Overlap

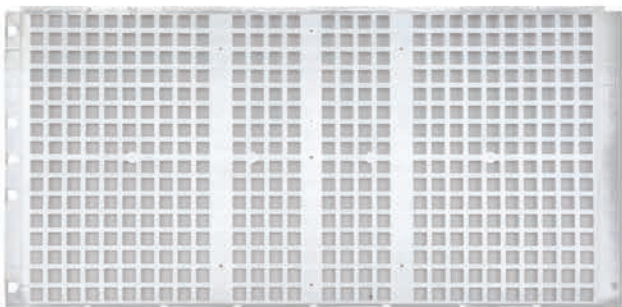

The **DURA-SLAT 4'** design is 2' wide by 4' long. All four sides of the **DURA-SLAT 4'** sections sit flush against the adjacent panel. This design requires a support every 24" or 16".

Model: DS24X48 (Non-Overlap)

Size: 24.125" x 48.25" (61.28 cm x 122.56 cm)

Surface Opening: 1.1" x 1.1" (2.79 x 2.79 cm) Square Holes

Weight: 5.93 lbs. (2.69 kg)

DURA-SLAT Four Foot (4') Overlap

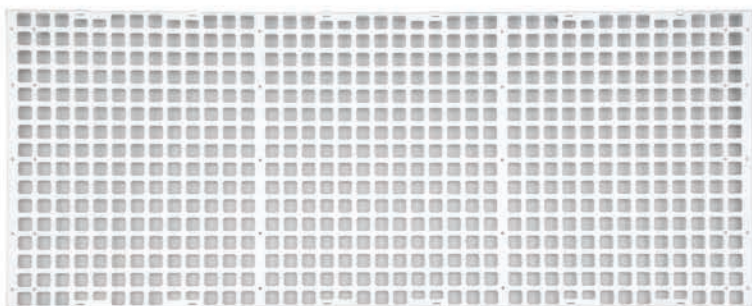

The **DURA-SLAT 4' Overlap** design is 2' wide by 4' long panel with connections on all four sides. This design utilizes interlocking tabs along the 4' side allowing the parts to be adjoined. The 2' side uses an overlap connection only requiring one cross support. This design requires a support every 24" or 16".

Model: DS24X48 STO (Overlap)

Size: 24" x 49.5" (60.96 cm x 125.73 cm)

Surface Opening: 1.1" x 1.1" (2.79 x 2.79 cm) Square Holes

Weight: 6.52 lbs. (2.96 kg)

DURA-SLAT Five Foot (5')

The **DURA-SLAT 5'** design is 2' wide by 5' long. All four sides of the **DURA-SLAT 5'** sections sit flush against the adjacent panel. This design offers the flexibility of a 5' wide floor where no connection is needed. 25% less frames per house reduces wood and labor cost. This design requires a support every 20".

Model: DS24X60

Size: 24" x 60.25" (60.96 cm x 153.04 cm)

Surface Opening: 1.1" x 1.1" (2.79 x 2.79 cm) Square Holes

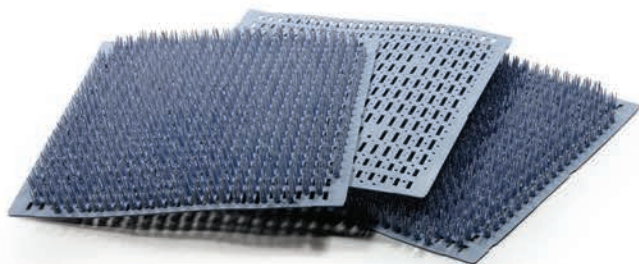

Weight: 7.52 lbs. (3.42 kg)

POULTRY BREEDER PRODUCTS (cont.)

DURA-PAD Poultry Nest Pad

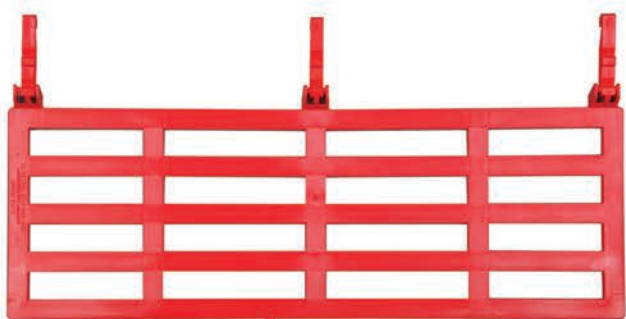

DURA-PAD is made from high-grade virgin polyethylene to ensure superior wear and longevity. The rounded tops contribute to the hen's comfort, help to ensure safe egg roll-off, and prevent feathers from clinging to the egg. Holes in the center of each cluster of blades and slotted openings between the clusters create more open area than any other pad. This increased open space provides better dirt and manure filtration creating a cleaner environment. The larger open areas make **DURA-PAD** nest pads easier to clean.

Model: DP12X13

Size: 11-13/16" x 12-3/4" (30.00 cm x 32.39 cm)

Weight: 0.36 lbs. (0.16 kg)

Model	Size (W x L)		Weight	
	in.	cm	lbs.	kg
DP12X13	11-13/16" x 12-3/4"	30.00 x 32.39 cm	0.36 lbs.	0.16 kg

DURA-RAMP Poultry Nest Ramp

DURA-RAMP is made out of high-impact virgin polypropylene material providing superior impact and wear resistance. The hinge area is reinforced to prevent cracking or breaking. Our solid plastic construction is rot/corrosion proof, resists microorganism build-up, and sheds waste easily. **DURA-RAMP** will not splinter, thereby reducing footpad problems experienced with wood ramps. Unlike wood ramps, our non-porous smooth surface accumulates no debris or litter resulting in cleaner ramps and nest pads. The **DURA-RAMP** will easily outlast wood ramps.

Model: DR10X29

Size: 10" x 29" (25.4 cm x 73.66 cm)

Weight: 1.21 lbs. (.55 kg)

POULTRY HATCHERY PRODUCTS

SOUTHWEST AGRI-PLASTICS HATCHERY PRODUCTS

SOUTHWEST AGRI-PLASTICS offers a full line of plastic Poultry Hatchery products. Our Egg Flats, Hatch Trays, and Chick Boxes are designed to out-perform the competition. Reinforced wear areas provide longer life. Larger opening makes cleaning easier and keep products clean longer. Select Southwest Agri-Plastics products Feature **BIO-PRUF** Anti-Microbial additive. **DURA-TRAY** and **DURA-BOX** are specially treated to inhibit the growth of bacteria including Salmonella, E.Coli, Staph, and Pneumonia.*

**Even though products contain anti-microbial additive, they must still be subjected to standard sanitization methods.*

BIO-PRUF Anti-Microbial Protection

Laboratory tests of Salmonella, E.Coli, Staph and Pneumonia cultures demonstrated a clear difference between untreated samples (A) and those treated with BIO-PRUF Anti-Microbial Protection (B), which inhibited the growth of bacteria.

DURA-BOX Poultry Chick Boxes

DURA-BOX 8 Post Poultry Chick Boxes nest, stack, and are compatible with most other chick boxes. More open areas provide better ventilation and added plastic in critical areas to reduce breakage. Manufactured from high-grade virgin polyethylene material providing superior impact and wear resistance, **DURA-BOX** is available in four colors: white, blue, red, and yellow. (Special colors available upon request)

Model: DBX (Paperless)

Size: 25-5/8" x 19-3/8" x 6 -1/8" (65.09cm x 50.17cm x 15.56cm)

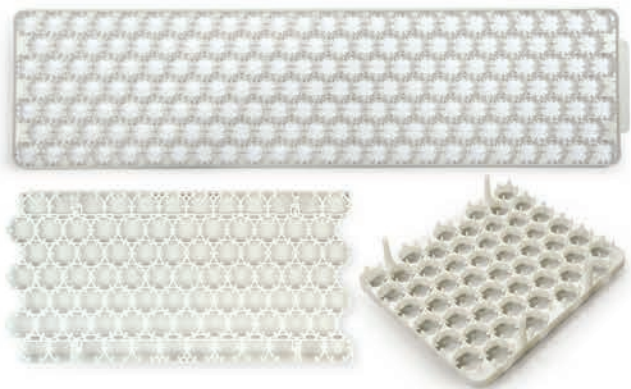

Weight: 3.1 lbs. (1.41 kg)

Model: DBX-P (Paper Required)

Size: 25-1/8" x 19-5/16" x 6 -1/16" (63.82cm x 49.06cm x 15.40cm)

Weight: 2.85 lbs. (1.29 kg)

Model	Size (W x L)		Depth		Weight		Paper Required

DURA-FLAT Poultry Egg Flats

DURA-FLAT Poultry Egg Flats are easy to handle and provide maximum protection against breakage and contamination. High-impact virgin polypropylene material is used to create a product with superior impact and wear resistance, along with improved rigidity. Manufactured with additional plastic in critical areas to prevent breakage, **DURA-FLAT** offers a design that is lighter weight with improved stackability. We manufacture five sizes which are designed to work with Jamesway or Chick Master Incubators, as well as other models.

Model	Size (W x L)		Weight		Egg Capacity	Compatibility
	in.	cm	lbs.	kg		
DF-36	11.47" x 11.47"	29.13 x 29.13 cm	0.36 lbs.	0.16 kg	36	Jamesway
DF-42	12.13" x 11.56"	30.81 x 29.36 cm	0.42 lbs.	0.19 kg	42	Jamesway
DF-54	12.18" x 14.95"	30.94 x 37.97 cm	0.85 lbs.	0.39 kg	54	Chick Master
DF-84	11.50" x 23.50"	29.21 x 59.69 cm	1.00 lbs.	0.45 kg	84	Jamesway
DF-165	12.06" x 45.88"	30.63 x 116.53 cm	2.90 lbs.	1.32 kg	165	Chick Master

POULTRY HATCHERY PRODUCTS

DURA-TRAY Lids also available.

DURA-TRAY Poultry Hatch Trays

Made from high-grade virgin polyethylene material, **DURA-TRAY Poultry Hatch Trays** provide superior impact, wear resistance, along with improved rigidity. Added plastic in critical areas prevents against breakage. **DURA-TRAY** is specially designed to be lighter weight and offer improved stackability. Diamond shaped openings in the bottom are 15% larger than leading competitor for improved cleanability. **DURA-TRAY Poultry Hatch Trays** are designed to work with Jamesway & Chick Master hatchers as well as other models. All models will cycle through Inovo equipment.

Model: DT168 (168 Egg Capacity for Jamesway)
Size: 49.25" x 15" x 4.75" (125.09 cm x 38.10 cm x 12.06 cm)
Weight: 6.2 lbs. (2.81 kg)

Model: DT165 (165 Egg Capacity for Chick Master)
Size: 48.50" x 16.69" x 4.63" (123.19 cm x 42.39 cm x 11.76 cm)
Weight: 6.33 lbs. (2.87 kg)

Model	Size (W x L)		Depth		Weight		Egg Capacity	Compatibility

DURA-GRO POULTRY FEEDERS

The **DURA-GRO Poultry Chick Feeder** is the premier feeder for transitioning chicks to an automated pan. Our oval design allows for larger space between pans and provides for 20% larger perimeter than circular models. Each feeder will accommodate up to 100 birds. The feeders are recommended for chicks from day 1 through day 12, when birds reach the size that allows feeding from the automated pans. The **DURA-GRO Chick Feeder** is specifically designed to reduce feed waste and contamination by preventing the chicks from entering the feeder. Test results for hopper style feeders show up to 14% higher final live weight. We manufacture the feeder from a virgin high-density polyethylene plastic, providing superior impact and wear resistance. Our **Storage System** makes **DURA-GRO Chick Feeders** the easiest to store and maintain versus other chick feeders in the market.

The **DURA-GRO Poultry Feed Tray** is a durable, lightweight tray designed to give you longer life while providing better feed distribution and reduced costs. We manufacture the tray using a virgin high-density polyethylene plastic, providing superior impact and wear resistance. **DURA-GRO's** ribbed bottom and sidewalls maximize strength while preventing feed loss. The ribbed design also reduces loss from chick scratching. Smooth surfaces make **DURA-GRO** easy to clean. The 13" width allows it to fit easily between the feed pans for all brands of feeding equipment.

DURABILITY

- Constructed from Virgin High Density Polyethylene
- Reinforced Stress Points
- Superior Impact & Wear Resistance
- Rot / Rust / Corrosion Proof
- Light Weight / Rigid Designs

CLEANABILITY

- Less Contamination
- Helps Keep Feed Clean & Dry to Reduce Risk of Diseases
- Reduces Cleaning Time
- Non-Porous / Moisture Resistant Surfaces

PERFORMANCE

- Better Feed to Gain Ratio
- Better Feed Distribution
- Reduced Feed Waste
- Improves Uniformity
- Increased Live Weight in the First Week of Age and at the End of the Flock Cycle
- UV Protection
- Easy to Stack & Store
- Universal Compatibility
- Cost Effective

DURA-GRO
POULTRY CHICK FEEDER

DURA-GRO
ROUND CHICK FEEDER

DURA-GRO Poultry Chick Feeders

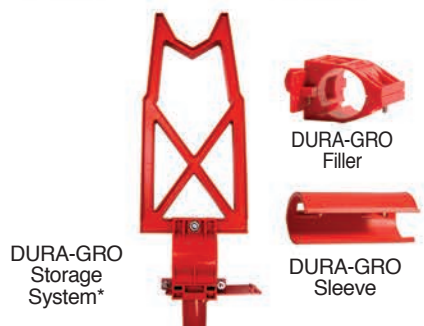

The **DURA-GRO “Oval-Style” Chick Feeder** is designed to increase feeding capacity. The oval design allows for easier chick movement under the feed lines. You can combine **DURA-GRO Feed Dispensers** and **Storage Systems** for the easiest to use chick feeder system available. Fits all brands of feeding equipment.

Model: DGCF

DURA-GRO Round Chick Feeder

The **DURA-GRO Round Chick Feeder** is designed to increase feeding capacity. The round model makes it easier to maintain consistent feed level. You can combine **DURA-GRO Feed Dispensers** and **Storage Systems** for the easiest to use chick feeder system available. Fits all brands of feeding equipment.

Model: DGCF RND, DGCF RND LP

DURA-GRO Storage System **PATENTED*

The patented **DURA-GRO Storage System** will eliminate the need to remove the feeders from the house. The **DURA-GRO Stand** mounts to the **DURA-GRO Filler**, which mounts on the feed tube. Stack the feeder on the Stand and you're done. Works with most hopper style feeders.

DURA-GRO Filler is a plastic feed dispenser with a guillotine system to control the feed flow at the level of the tube. It can be installed with all brands of automatic feeders (Big Dutchman, Chore-Time, Cumberland, Roxell, Val-Co, etc.). The hole should be approximately 7/8" to 1" diameter.

DURA-GRO Sleeve is a plastic feed dispenser designed to control the feed flow at the level of the tube. It can be installed on any brand of metal tube. The hole should be approximately 7/8" to 1" diameter.

DURA-GRO Poultry Feed Tray

The **DURA-GRO Poultry Feed Tray** is designed for longer life and better feed distribution than other inferior models. Fits all brands of feeding equipment.

SOUTHWEST **AGRI-PLASTICS**, INC.

DURAPLAS EGG TRANSPORT SYSTEM

Fewer broken eggs means more profit. The **DURAPLAS Egg Transport System** allows you to move eggs safely and efficiently, providing maximum egg protection while reducing the number of hair line cracks. Made from high-impact plastic, the **DURAPLAS Egg Transport System** provides superior impact and wear resistance. UV additive provides excellent UV resistance. **DURAPLAS'** smooth non-porous surface is easy to clean and fast drying, minimizing risk of contamination. **BIO-PROUF Treatment** inhibits the growth of bacteria.

The three-part interlocking system can be customized to meet your needs, securely carrying up to 12,960 eggs per pallet. Each system is constructed of a Pallet Base, up to five Dividers and nesting stacks of 30-Cell Egg Trays.

DURAPLAS is designed and manufactured in Dallas, TX, USA, providing a superior product at a better price point and delivery than foreign imports. **Southwest Agri-Plastics** has over four decades of experience in manufacturing plastic products for the agricultural industry.

DURABILITY

- Constructed from Virgin Impact & Wear Resistant Plastics
- Reinforced Stress Points
- Light Weight / Rigid Designs

CLEANABILITY

- Less Contamination
- Reduced Cleaning Time
- Non-Porous / Moisture Resistant Surfaces

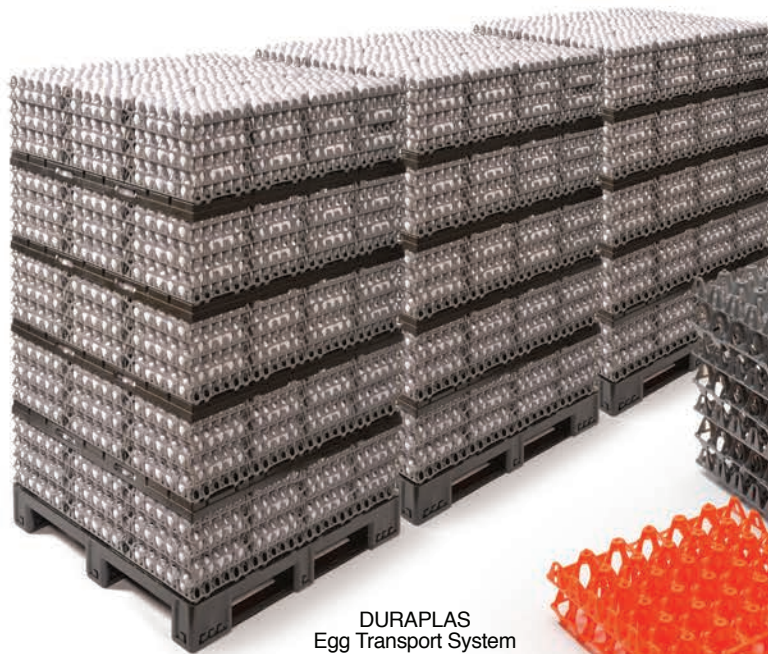

PERFORMANCE

- Fewer Broken Eggs
- Maximum Egg Protection
- Reduces Hairline Cracks
- BIO-PRUF Anti-Microbial Treatment
- UV Protection
- Easy to Stack & Store
- Universal Compatibility
- Cost Effective
- Quick Delivery

EGG TRANSPORT PRODUCTS

DURAPLAS Egg Transport System

The **DURAPLAS Egg Transport System** is constructed of three-part interlocking components that can be customized to meet your needs. Each system is constructed of a Pallet, Dividers and 30-Cell Egg Trays. Users can add up to five dividers (six tiers of egg trays) to securely carry up to 12,960 eggs per pallet!

DURAPLAS Customizable Options

Two pallet base options are available. The **DURAPLAS Pallet with Feet (Rackable)** features pallet "feet" allowing for easy storage on warehouse racks. The **DURAPLAS Pallet with Caps (Non-Rackable)** is a traditional open faced pallet for easy loading / unloading in environments where pallets are stored only on the floor.

DURAPLAS Non-Rackable and **Rackable** pallets can easily be converted by replacing Caps with Feet (or vice versa). Add an extra degree of security for your eggs by replacing pallet caps on non-rackable pallets with pallet feet.

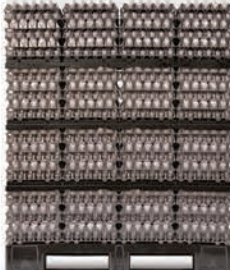

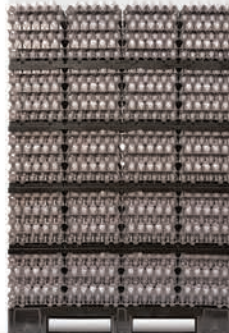

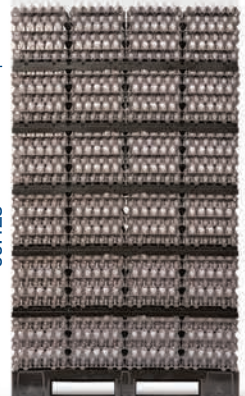

DURAPLAS Egg Trays are also available in custom colors. Contact a **Southwest Agri-Plastics** representative for your custom quote.

DURAPLAS Egg Transport System (10,800 egg capacity shown)

ITEMS REQUIRED PER PALLET

8,640 Eggs	10,800 Eggs	12,960 Eggs
Egg Trays: 288 Dividers: 3 Pallets: 1	Egg Trays: 360 Dividers: 4 Pallets: 1	Egg Trays: 432 Dividers: 5 Pallets: 1
 56.25"	 69.125"	 82"

DURAPLAS Pallet with Feet (Rackable)

The **DURAPLAS Pallet with Feet (Rackable)** features bottom “feet” which allow for the pallets to be stored warehouse racks. These pallets have a solid top for easy cleaning and 4 way access for forklifts and pallet jacks.

Model: DURAPLAS with Feet

Size: Width 35.43” x Length 47.24” x Height 6.30” (90 cm x 120cm x 16cm)

Weight: 32.54 lbs. (14.76 kg)

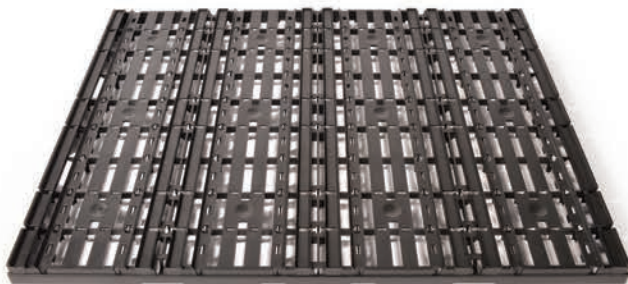

DURAPLAS Pallet with Caps (Non-Rackable)

The **DURAPLAS Pallet with Caps (Non-Rackable)** is a heavy duty, open-faced pallet designed for easy loading and unloading. This pallet style reduces the likelihood of damage from forklifts and pallet jacks. The non-rackable pallet is for use specifically in environments where pallets are stored on the floor only.

Model: DURAPLAS with Caps

Size: Width 35.43” x Length 47.24” x Height 6.30” (90 cm x 120cm x 16cm)

Weight: 30.58 lbs. (13.87 kg)

DURAPLAS Divider

The **DURAPLAS Egg Transport Divider** is designed for light weight and extra strength. The divider is engineered to redistribute weight to the frame of the load bearing transport system and away from the eggs, allowing users to stack up to five dividers / 12,960 eggs per pallet.

Model: DURAPLAS Divider

Size: Width 35.43” x Length 47.24” (90 cm x 120cm)

Weight: 8.90 lbs. (4.04 kg)

DURAPLAS Interchangeable Pallet Components

Convert **DURAPLAS Non-Rackable Pallets** to **Rackable** versions (or vice versa). If you want extra security for your eggs, you can simply replace pallet caps with pallet feet. Pallet components are designed to withstand maximum impact. If damaged in the future they can be easily replaced, instead of purchasing a new pallet.

EGG TRANSPORT PRODUCTS

DURAPLAS 30-Cell Egg Trays

Each **DURAPLAS 30-Cell Egg Tray** is designed to stack and interlock with adjoining trays to carry up to 180 per stack. Light weight and durable, each tray is designed with an egg cell that isolates and protects its cargo from contact with other eggs. When not in use, egg trays nest within each other to save space in storage.

Model: DURAPLAS Egg Tray

Size: 11.81" x 11.81" (30cm x 30cm)

Weight: .30 lbs. (.14 kg)

Capacity: 30 eggs/tray, 180 egg trays/stack

Available Colors: Grey (standard), Custom Colors Available*

(*with minimum order quantity)

BIO-PRUF Anti-Microbial Protection

In addition to its protective design, the **DURAPLAS Egg Transport System** offers a higher level of security. The **DURAPLAS 30-Cell Egg Tray** features **BIO-PRUF Anti-Microbial Protection**. Laboratory tests of Salmonella, E.Coli, Staph and Pneumonia cultures demonstrated a clear difference between untreated samples (A) and those treated with BIO-PRUF Anti-Microbial Protection (B), which inhibited the growth of bacteria.
